

ERM1 Tutorial

Winter Semester 2023/2024

Week 1: 25.10.2023

Shravani Daftardar
Piumal Mahawasala

What is ERM1 all about?

- Empirical Research Methods = systematic collection and analysis of data (i.e. observation and evidence)
- In this course, you will learn about...
 - Basic empirical concepts and research philosophy
 - Developing an experiment design
 - Quality aspects of scientific texts
 - Designing questionnaires and measuring their validity & reliability
 - Using SPSS and preparing datasets
 - Parametric and non-parametric approaches to data analysis
 - Multi-level analysis
 - ...

Who are we?

Prof. Dr. Albulene Grajcevci (you will meet her on Monday, 30.10.2023!)

Shravani Daftardar

- 3rd semester EduTech student
- From Pune, India
- Bachelors' in Psychology
- Employed as a Working Student at Scheer Research Institute

Piumal Mahawasala

- 3rd semester EduTech student
- From Colombo, Sri Lanka
- BSc in Computer Science
- Master of Education
- Employed as a Research Assistant at DFKI

How can you reach us?

- Official Tutorial timeslots: Wednesdays 10-12h
- Drop us a Teams message (may take up to 24 hours to respond)
- Email:

shda00002@stud.uni-saarland.de (Shravani)

kyma00002@stud.uni-saarland.de (Piumal)

ERM1 Moodle Course

- Go to Saarland University Moodle → Log in (Universität des Saarlandes), use UdS ID and password
- Home → Bildungswissenschaften → Educational Technology Wintersemester 2023/24 → Empirical Research Methods 1 WiSe 23-24
- Enrolment Key: ERM1_stats

You will find lecture & tutorial materials, exercise sheets and more resources here.

This is also where you will submit your weekly assignments!

Overall structure of the course

- Lectures conducted every Monday + materials given to students to dive deeper into the topic of the week
- Hands-on classroom activities and tasks
- Weekly individual assignments e.g. reflections on theory, data analysis using SPSS etc.
= **40% of final grade**
- Written final exam (date & time TBD) = **60% of final grade**
- Tutorials (highly recommended) every Wednesday to help with queries / clarification on specific topics / assignments

Let's talk SPSS!!!

About SPSS

- **S**tatistical **P**ackage for the **S**ocial **S**ciences (aka IBM SPSS Statistics)
- Software package used for manipulation and analysis of statistical data
- In a quantitative research context:

Steps for requesting SPSS:

1. Open this link: <https://www.hiz-saarland.de/dienste/software-lizenzen/spss/>
2. Click on 'Software Portal' (section How do you get the software)
3. In the new window, click on 'SPSS for Saarland University'
4. Scroll down until IBM SPSS Statistics 27/26/25 - Students of the Uds and change the quantity from 0 to 1 > click on Kaufen

Steps for requesting SPSS :

5. You will be asked to fill a form (no need for the stamp and please, select the student option), save as PDF and send together with your enrolment confirmation to the email address: freischaltungen@asknet.de

Dear Software Portal of the UdS Team,

I attached the form authorization and enrolment confirmation document in order to download the last version of IBM SPSS Statistics.

Best regards

Steps for downloading SPSS:

6. Once you receive the email confirmation: Open again the link: <https://www.hiz-saarland.de/dienste/software-lizenzen/spss/>
7. Click on 'Software Portal' (section How do you get the software)
8. Write your user and password and click on continue
9. In the search option, write SPSS
10. Choose the last option in the table and change the quantity from 0 to 1, click on buy now and then click on order
11. Accept the terms and conditions and click on continue
12. Click on Pay now and later click on 'shelf'
13. Download the 3rd option and also the option of 'spss-statistics-26-installation-activation.pdf'

Questions?

Thank you for your attention :)

Next session: Lecture by Prof. Albulene Grajcevci on
Monday, 30.10.2023 from 10-12h
